

1 Q. And what determination was made with
2 respect to whether it was an arson?

3 A. There were a lot of agencies involved

7 suggested that and then changed their opinion.

8 I know for a fact that there was never a suspect

12 certain leads that the family suggested might be viable
13 that were overlooked intentionally by the police
14 department. The T.B.I. investigated it. And there has
15 never been a finding by those agencies that it was an
16 arson or that it was a murder.

17 Q. So with respect to the implication that

19 suspect identified?

20 A. There's never been a suspect

22 Q. And the investigation into that, was
23 that something done by your office?

24 A. No, it was not done by our office.
