Subject: RE: Public Records Request dated Feb. 8, 2003

Mr. Davidian:

Mr. Shipley asked me to respond to your records request of Feb. 8.

This request is very similar to your request of Nov. 21, 2001 to which I responded on Nov. 29, 2001. The answer remains as it did in my earlier response to you. The log files are deleted daily. The files you requested had been deleted when you made your earlier request and no longer exist.

Subject: Public Records Request

Mr. Shipley:

This is a request for public records pursuant to Tennessee statute.

I request access to the log files showing which Web sites City of Cookeville computers browsed to from Sept. 21, 2001 to Sept. 28, 2001, including logs of all ftp uploads and to which URL such uploads were made. If these logs are maintained electronically, I request them in that form. If they have been reduced to paper or other medium, I request to see them in the form in which they exist.
