Describe briefly your education and any work experience or other activity which in your opinion would be beneficial in carrying out the responsibilities of this office. [I am a business attorney. My practice focus is financial institutions and finance. I have also taken legal courses in local government and land use planning. I was one of the original members of the CDA, when it was organized in 1992/93 and served until 1997 when I became Village President. Consequently, I was involved in the formation of the current TIFs (N. Oakland Ave and Edgewood), the adoption of Redevelopment Plans for the areas affected, and the implementation of those plans. As a result of these experiences, I am familiar with the workings of the CDA, its historical projects, the issues it has faced, how it interacts with staff and other governmental units, and the benefits to the Village that can be obtained through its activities. I also have experienced the perspective of observing/approving/consulting with respect to CDA activities as a Village Trustee and as Village President and have also worked with many of the current members of the CDA on diverse community projects and interests, including CDA activities.]

If appointed to this office, are there any other activities in which you are now engaged which would interfere with your regular attendance upon the duties required: [No.] If so, to what extent?
