Called to complain about Baker's Square. Woman said that the restrooms are always dirty. Said there are no toilet paper dispensers. One time there were 12 rolls piled on the floor, this time one roll on the floor. She said on the checklist on the back of the door, nothing is checked off. The floor is all littered and the sinks are scummy. She talked to 2 different managers and both of them told her they would send someone in, but there was no difference.

She was there with a gentleman friend and he said the same thing about the men's restroom.

*2-13-03 Toilet rooms clean. No toilet paper found on floor. There are toilet paper dispensers in both toilet rooms. Jf.*
