Group of five ate at the Red Rock Buffet on Sunday, March 14th. Everyone got sick on Monday, Tuesday or Wednesday-upset stomachs-stomach cramps, vomiting, diarrhea. She was one of the sickest and had to stay home from work on Tuesday. They did not go to the doctor. No one ate anything raw. The three who got the sickest, Lisa, her boyfriend and his mother, ate the crab legs. She said the buffet was very dirty with dirty linens.

She called Red Rock to complain and first talked to someone in the kitchen who was very rude and said they had not had any other complaints and to forget about it. She asked to talk with the manager, and he didn't seem at all concerned, didn't apologize or give her any satisfaction. She then called Dennis Ghetto, who said he had had a problem with a Chinese restaurant in Shorewood and told her to call the health department which she obviously did.

3-27-04 10:35 Telephoned Lisa K., no answer. Jgf.

3-27-04 Inspection, Sanitation OK. Talked to the chef in charge about Sunday Buffet. Made several suggestions. Told him to tell the owner about my inspection and the complaint. Jgf.
