Picked up rice soup from Riverbrook about 4:15 p.m. yesterday.  
Found what looked like a rice maggot in soup. Called to talk  
with a manager, but was told the managers were in a meeting.  
Called back after 6:00 p.m. and the woman was very nasty.  
Told the manager she was going to report it to the health  
department and the manager said to go right ahead.
