Guy called to say that he had food delivered from William Ho's on Monday, August 4. He felt sick an hour later with continuous cramping and diarrhea. He then felt better, but has been feeling sick again this week with cramping and diarrhea. He ate Chinese dumplings w/pork (like pot stickers) and Mongolian beef. He said the dumplings didn't taste just right, but he ate them because he was so hungry. He has not been to the doctor.

8-14-03 He is the only one who ate food. He said the pork may have been under cooked. He had gotten a soda with the meal but did not drink it. He could not remember what he ate 24 to 48 hrs before eating at William Ho's. *KJ*
