**Re: Request to view company records**

**As regards our telephone conversation of 11/27/00, let me make some corrections to statements you made in your follow-up fax documents I received this morning.**

**For the record:**

- 1. We are the TML Risk Management Pool, not the Tennessee Municipal League.**
- 2. I did not decline to provide you with access to financial records. You did not request to see financial records. Your request was for claims information specifically related to attorney's used and amounts paid to them as regards member lawsuits. In either case, all of these records are exempt from the public records act.**
- 3. I did not decline to provide you with the statute information. You requested I provide in writing, the statute that exempts us from the public records act. I said I would provide the statute once I received your request in writing.**

**With that, you noted in your memo that 'This is a request for public records pursuant to Tenn. Code Ann. §10-7-503'. It is this very code that clearly defines the criteria surrounding our exemption from the requirements under this subsection.**

**We respectfully decline your request to inspect the TML Risk Management Pool records, pursuant to T.C.A. §10-7-503.**

**Should you need further clarification on the statute, please seek advice from your attorney.**

Thank you,
